NEW FILM ASKS IF CANADA COULD EVER SEE A DAY LIKE DOBBS

NOW AVAILABLE ON-DEMAND

Today, tens of thousands of Americans will attend the March for Life in Washington D.C. to celebrate the overturning of ROE v WADE in the Dobbs decision of 2022. A new film from DunnMedia & Entertainment asks the question: Could Canada ever experience a similar victory here?

The film follows two pro-life women, Josie Luetke and Ruth Robert, as they travel through the US and Canada to investigate how the landmark decision in their neighbouring nation could help or hinder efforts to end abortion in Canada, the only democratic country in the world with zero legal protection for the preborn.

Their journey begins in January 2023 at the historic March for Life in Washington, D.C. and ends in May of 2023 at the National March for Life in Ottawa.

Notable contributors from both sides of the border include journalist **Barbara Kay**; constitutional lawyers **Phil Horgan** and **Albertos Polizogopoulos**; Members of Parliament **Arnold Viersen** and **Cathay Wagantall**; former Planned Parenthood clinic director turned pro-life activist **Abby Johnson**; Students for Life of America **Kristan Hawkins**; Senior Counsel, Alliance Defending Freedom **Denise Harle**; Babylon Bee CEO **Seth Dillon**; filmmaker **Jason Jones**; President Emeritus Campaign Life Coalition **Jim Hughes** along with speaker/authors **Stephanie Gray Connors** and **Jonathon Van Maren**. The film also features an interview with retired physician and abortionist **Dr. Fraser Fellows**.
